VEGETINE

VEGETINE has never failed to effect a cure, giving tone and strength to the system debilitated by disease.

SHE RESTS WELL.

SOUTH POLAND, Me., Oct. 11, 1876.

MR. H. R. STEVENS:

Dear Sir—I have been sick two years with the liver complaint, and during that time have taken a great many different medicines but none of them did me any good. I was restless nights and had no appetite. Since taking the Vegetine I rest well and relish my food. Can recommend the Vegetine for what it has done for me. Yours respectfully,

MRS. ALBERT RICKER.

Witness of the above,
Mr. Geo. M. Vaughan, Medford, Mass.

VEGETINE.

Thousands will bear testimony (and do it voluntarily) that Vegetine is the best medical compound yet placed before the public for renovating and purifying the blood, eradicating all humors, impurities or poisonous secretions from the system, invigorating and strengthening the system debilitated by disease; in fact, it is as many have called it, "The Great Health Restorer."

SAFE AND SURE.

MR. H. R. STEVENS:

In 1872 your Vegetine was recommended to me, and yielding to the persuasions of a friend, I consented to try it. At the time, I was suffering from general debility and nervous prostration, superinduced by overwork and irregular habits. Its wonderful strengthening and curative properties seemed to affect my debilitated system from the first dose, and under its persistent use I rapidly recovered, gaining more than usual health and good feeling. Since then I have not hesitated to give Vegetine my most unqualified indorsement as being a safe, sure and powerful agent in promoting health and restoring the wasted system to new life and energy. Vegetine is the only medicine I use, and as long as I live I never expect to find a better.

Yours truly,
W. H. CLARKE,
120 Monterey Street, Alleghany, Pa.

VEGETINE.

VEGETINE thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

The following letter from Rev. G. W. Mansfield, formerly pastor of the Methodist Episcopal Church, Hyde Park, and at present settled in Lowell, must convince every one who reads this letter of the wonderful curative qualities of Vegetine as a thorough cleanser and purifier of the blood:

HYDE PARK, Mass, Feb. 15, 1876.

MR. H. R. STEVENS:

Dear Sir—About ten years ago my health failed through the depleting effects of dyspepsia; nearly a year later I was attacked by typhoid fever in its worst form, it settled in my back and took the form of a large deep-seated abscess, which was fifteen months in gathering. I had two surgical operations, by the best skill in the state but received no permanent cure. I suffered great pain at times and was constantly weakened by a profuse discharge. I also lost small pieces of bone at different times.

Matters ran on thus about seven years, till May, 1874, when a friend recommended me to go to your office and talk with you of the virtue of Vegetine. I did so, and by your kindness passed through your manufactory, noting the ingredients, etc., by which your remedy is produced. By what I saw and heard I gained some confidence in Vegetine.

I commenced taking it soon after, but felt worse from its effects; still I persevered and soon felt it was benefiting me in other respects. Yet I did not see the results I desired, till I had taken it faithfully for a little more than a year, when the difficulty in the back was cured, and for nine months I have enjoyed the best of health.

I have in that time gained twenty five pounds of flesh, being heavier than ever before in my life, and I was never more able to perform labor than now.

During the past few weeks I had a scrofulous swelling as large as my fist gather on another part of my body.

I took Vegetine faithfully and it removed it level with the surface in a month. I think I should have been cured of my main trouble sooner if I had taken larger doses, after having become accustomed to its effects.

Let your patrons troubled with scrofula or kidney disease understand that it takes time to cure chronic diseases, and if they will patiently take Vegetine, it will, in my judgment, cure them.

With great obligations I am,
Yours very truly,
G. W. MANSFIELD,
Pastor of the Methodist E. Church.

GENERAL NEWS.

FROM WASHINGTON.

FACTS AND RUMORS.

The Speakership.

One of the democratic candidates for the Speakership says that the only chance for the republicans to secure the organization of the house lies in the great number of democratic candidates. The strict party machinery is so small that unless the democrats all abide by their caucus nomination, that party would be in danger of defeat. It would be possible for six men to make an alliance by which the election of any eligible candidate they might name would be insured. Some of the democrats say that the republicans not only will not secure the organization of the house, but that they will be in great danger of losing control of the senate committees if three southern, or other republicans, who may be dissatisfied either with the President's policy or the present officers of the senate, shall unite with the democrats for that purpose.

Bidding for Mail Contracts.

Professional bidders for mail contractors have scooped many of the contracts at the recent letting for the New England routes. They ascertain what was paid on the last contract and bid a few dollars less, expecting to sell out at a profit. A New Yorker has thus far obtained several of the Essex county contracts.

Reported Appointment.

It is reported that Edward Pherson, late clerk of the house of representatives, and presiding officer of the Cincinnati convention, is to be appointed chief of the treasury bureau of engravings and printing.

Resignations.

H. O. Jewell, chief of the bureau of engraving and painting of the Treasury Department, has tendered his resignation, to take effect the 1st of May. Hon. Edward McPherson, ex-clerk of the House of Representatives, has been appointed to the office. Charles McCarter, assistant chief of the bureau, has also resigned. The vacancy is filled by the appointment of O. H. Irish, of Nebraska.

General Sheridan in Washington.

Lieutenant General Sheridan arrived today and in company with General Shermen had an interview with the president this afternoon. The purpose of his visit is to consult with the authorities in Washington concerning Indian and military matters in the west. Hon. John Q. Smith, commissioner of Indian affairs, met him and General Sherman at the war department today and they had a long conversation as to the intended removal of the Indians from Red Cloud and Spotted Tail agencies to the new reservations in Dakota, on the Missouri river, where they can be provided for with more security and less expense. The locations of the new agencies and the time of removal are yet to be determined. No final conclusion will be reached until after General Sheridan shall have consulted with General Crook who is expected at Chicago in a few days. The Sioux and other Indians to be thus removed number at least 12,000. The removal will probably not be entirely effected until towards the close of the summer.

A Queer Set of Fellows.

A delegation of the Labor League of twenty-six white and thirty-five colored called upon the president this morning and delivered an address requesting the president to embody in his message to congress, a recommendation for appropriations for internal improvements throughout the country; and also to recommend the restoration of suffrage in this district, and the payment of 10,000 working men defrauded by contractors under the Board of Public Works. The president said the ideas presented were of such magnitude as would not now permit him to make an extensive reply.

The citizens of this town assembled in special town meeting on Tuesday April 24th. The attendance was quite large. The meeting was called to order by Jethro Peckham moderator and after considerable discussion the following action was taken:

Voted and Resolved, That this town defend the rights of its inhabitants in and to Sachuest Beach, and further,

Voted and Resolved, That in view of the said rights being apparently imperilled by a suit already begun against one of the inhabitants of this town, that a committee be appointed to consider the subject at large and report to a future town meeting what action it is in their opinion, advisable for this town to adopt in the premises, and that said committee be, and they are hereby, authorized to procure the written opinion of some counsellor at law respecting said subject, if in their opinion the same is expedient.

SERVICES ON THE RUSSIAN FLEET AT NEW YORK.

NEW YORK, April 26.

The declaration of war by Russia against Turkey was read on board the Russian fleet yesterday, and received with great enthusiasm, cheering, etc.

Grand Duke Alexis

read the declaration on the admiral's ship Svetland. The admiral made an address to the officers and crew. The band played the Russian national anthem, and the whole crew attended religious services on the gun deck, where the chaplain invoked the blessing of God on the Russian arms. The same services were held on other vessels of the fleet.

Call on Greece Repudiated.

ATHENS, April 26.

The inhabitants of the Greek island Hydra refused to obey the call for an extraordinary reserve, and made seditious manifestations. Conscript lists were destroyed; also the telegraph connecting the island with Athens.

Turkey's Reply to Russia.

LONDON, April 26.

Following are the most important passages of Turkey's reply to the Russian manifesto. The reply, after quoting the eighth article of the treaty of Paris, says, "Although it is not the Ottoman Government which threatens and takes the initiative of aggression, and although consequently it was by rights the part of Russia to appeal to these stipulations of the treaty of Paris, the imperial government, in order to avoid all misunderstanding, applies to the signatory powers to use their good offices in the grave circumstances in which it is placed by applying the article before mentioned, and thus putting an end to the dangerous tension affecting the relations of the two states.

The porte expresses the conviction that the friendly powers, true to the feeling of benevolent interest which they never ceased to manifest to the Ottoman Empire, will seize this opportunity to arrest the outbreak of a great war, thus sparing those countries the painful extremities with which they are threatened, and Europe herself the trouble and danger resulting from a conflict between the two states—a conflict of which the Sublime Porte can justly repudiate the entire responsibility.

Roumania Declares War.

PARIS, April 26.

The Russian Telegraphic Agency announces that today the Roumanian Parliament will declare war against Turkey. All Turkish vessels will be embargoed by Russia from the 1st of May.

In an interview with a locomotive engineer a reporter of the New York Herald put this question: "Is not travelling at night always more dangerous than by daylight?" The engineer replied, "Not always. Under some circumstances I suppose it might be. But I would rather take my engine over the road at night. I have run a night express for years and prefer it to anything else. An engine always works better at night, for some reason. They say it is so with all machinery. I know it is always so with a locomotive. An engineer who is familiar with his road knows just as well where he is at night as when he can see. I can tell by the sound of the wheels on the track about where I am on the road. I can see a danger signal farther off at night than in daylight.

BUSINESS NOTICES.

SCOTCHING MALARIA.

It is a fact widely and amply attested that where the powerful and pernicious drug, quinine, and other mineral poisons, administered as remedies for fever and ague and billious remittents, fail to yield more than temporary relief to the sufferer, Hostetter's Stomach Bitters scotches those tremendous epidemics most thoroughly, and by strengthening the system and regulating its functions, protects it against malarial attacks. No resident of a locality where the above maladies prevail, or where they are likely to break out in consequence of the poisoning of the atmosphere by noxious exhalations, should fail to take practical cognizance of the above important truth, and by a timely use of the Bitters avoid the ravages of maladies so disastrous to the physical constitution. There is not in existence a finer tonic, corrective and defensive cordial.

Dr. Schenck's Standard Remedies.

The standard remedies for all diseases of the lungs are SCHENCK'S PULMONIC SYRUP, SCHENCK'S SEA WEED TONIC, and SCHENCK'S MANDRAKE PILLS, and, if taken before the lungs are destroyed, a speedy cure is effected.

To these three medicines, Dr. J. H. Schenck, of Philadelphia, owes his unrivalled success in the treatment of pulmonary diseases.

The Pulmonic Syrup ripens the morbid matter in the lungs; nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, the patient has rest and the lungs begin to heal.

To enable the Pulmonic Syrup to do this, Schenck's Mandrake Pills and Schenck's Sea Weed Tonic must be freely used to cleanse the stomach and liver. Schenck's Mandrake Pills act on the liver, removing all obstructions, relax the gall bladder, the bile starts freely, and the liver is soon relieved.

Schenck's Sea Weed Tonic is a gentle stimulant and alterative; the alkali of which it is composed, mixes with the food and prevents souring. It assists the digestion by toning up the stomach to a healthy condition, so that the food and the Pulmonic Syrup will make good blood; then the lungs heal, and the patient will surely get well if care is taken to prevent fresh cold.

All who wish to consult Dr. Schenck, either personally or by letter, can do so at his principal office, corner of SIXTH and ARCH STREETS, Philadelphia, every Monday.

Schenck's medicines are sold by all druggists throughout the country. mar15-eod-2m

THE DAY.

Gold closed yesterday at 107 in Wall street.

President Grant and family sail for Europe today.

The first battle of the Turkish war has been fought at Kars. The Russians were defeated with the loss of 800 men.

The Westerly fishermen report the season a failure. The run of shad in the Pawcatuck has been very poor and the profits small.

Miss Bertha Von Hillern is engaged in Providence, in the attempt to walk 115 miles in 50 hours. She started last evening at 9 o'clock.

The European war and the base ball clubs are expected to occupy the public attention now that the presidential election is over and the trouble in Louisiana is ended.

The wholesale and retail beer sellers of Providence have organized against the unlicensed dealers who are doing business without disturbance from the authorities.

The revival interest in Boston has become so great that a movement has been inaugurated to provide a series of lectures virtually in opposition to the work of Moody and Sankey.

The management of the Metropolitan horse railroad in Boston has given orders to conductors to allow no dogs on the cars. Ladies will now ride in the cars and engage a carriage for their poodles.

One of the most remarkable things of the season is, that no report of the failure of the peach crops has yet reached us. The correspondents are at fault, for they never came short in this direction before.

Boston has voted the sum of $10,000 for the celebration of the coming Fourth of July. In these times when business is prostrate, and thousands of people have no means of earning a livelihood a little economy in such expenditures might be practiced with good grace.

Rhode Island has twenty-seven newspapers, Connecticut supports one hundred and two and Massachusetts three hundred and forty-six. It is impossible to tell what is the combined circulation of those papers as some publishers have a habit of reporting from two to five times as many as the facts will warrant.

The democratic legislature of Louisiana has elected a northern man to the United States senate, from which we infer that it is not carpet-baggism, *per se*, that is objectionable in that latitude. A carpet-bagger who is a democrat is all right, but these fellows who are republicans are simply awful. Well, it is none of our business.

We copied an item from one of the exchanges yesterday to the effect that the steamer Eolus would remain off the route some two weeks longer. This is an error as she is expected to resume her trips between this city and Wickford early next week. The ferry boat Jamestown having been put in condition for summer work has already resumed her place on the route to Conanicut island.

The New York Custom House committee have decided to investigate affairs connected with that institution with doors closed to the reporters. That is a good idea. The average New York reporter has too large an inventive faculty to be trusted in cases where the simple truth is wanted. The only thing to be done is, as in the case of Tweed, invent a confession, make up a report, send it to the World or Herald, and acknowledge the wrong afterwards.

One of the greatest calamities that could befall the country at this time is the extra session of congress soon to be called. But for that the nation would be at peace. This bringing the politicians together at the present time is worse than Bennett's turning the wild animals loose in Central Park, even if there had been no joke about it. What we want for a few years is less politics, less legislation, and more attention to business. And business is a private affair with which congress has little to do.

THE TRUE INDIAN POLICY.

President Hayes has indicated his purpose to continue the peace policy in his management of Indian affairs. We hope he will be able to outwit the sharks who hang around the agencies and who are, often, more savage than the savages themselves. The great obstacle in the way of the success of this peace policy is found in the avarice of the whites rather than the obstinacy of the red men. We believe the true Indian policy is to abolish all tribal relations, do away with reservations, stop payment of rations, and in all respects deal with the red men as we do with those who are white or black. We should give the Indians a fair chance, lend them a helping hand to begin with, but do all with the purpose of making them settle down and live like the rest of mankind. Nothing short of this will bring relief. We are now trying to maintain tribal sovereignties on our own soil and entering into treaties with those who are subjects of our own government, as though they were distinct and separate nationalities. The whole theory is absurd and the practices under it wicked. Even here in Rhode Island we keep up a tribe of Narragansett Indians which is about as big a farce as was ever attempted by a civilized government. But the force of old traditions is so great that our legislators have not the courage to effect a change and make all our people equal before the law. The Indian problem will never be settled except by some action that shall lead to a settlement of the tribes and a recognition of the authority of our government. And when that is done, the day of sham treaties will be over and the disgrace of breaking them, on our part, be ended.

NEW BOOKS.

The Rev. L. T. Townsend D. D. of Boston University the author of "Credo" and other able works has taken in hand the modern revival and written a book entitled; "The Supernatural Factor in Religious Revivals" which has just been issued by Lee & Shepard. Like all of Dr. Townsend's works it is an earnest and exhaustive examination of the subject in hand and written with a degree of care and attention that commands the respect of all readers. As indicated by the title Prof. Townsend believes in the special presence and power of God in the work of saving souls. He is a supernaturalist, and has faith in the promises of the Gospel as being literally fulfilled. He finds in this view of the case the secret of the success of such men as Moody and Sankey and shows conclusively that the revivals with which the church has been blessed can be explained and understood on no other basis. A large part of the book is of especial interest at this time as it discusses the movement now in progress in Boston and New England generally. Persons who wish a clear and comprehensive view of this subject can do no better than to procure this book. It may be had at Hammett's.

"Abroad Again; or a Fresh Foray in Foreign Lands" is by Curtis Guild editor of the Boston Commercial Bulletin. His other work "Over the Ocean" was a very entertaining volume and it will be found that this partakes of the same general character. Mr. Guild is racy, spicy and always entertaining. His descriptions are very fine and never tedious and there is a vein of the humorous about him that attracts and charms. Lee & Shepard are the publishers, and we transfer to our columns elsewhere an entertaining sketch in which he describes an American abroad.

MAGAZINES.

The Monthly Reader, first grade, published by Shorey for the little folks, is received for May. It is designed for the use of primary schools to supplement the readers now in use of which the children are apt to grow weary. The name of the publisher is sufficient guarantee that the magazine will please the little ones, both as to pictures and stories. We understand it has already been adopted by several of the best schools. The subscription price, 50 cents a year, is low enough to secure it a trial. Three cents procures a sample copy.

Littell's Living Age for the weeks ending April 7th and 14th, the first numbers of a new volume,—have the following valuable contents: Turkish Invasions of Europe in 1670-83, by F. P. Verney, Contemporary Review; West Indian Memories: The Lesser Antilles and the "Boiling Lake," by W. Gifford Palgrave, Macmillan; Turkish Story-Books, by W. R. S. Ralston, Nineteenth Century; Prussia in the Nineteenth Century, John Stuart Blackie, Contemporary; Falkland, by Matthew Arnold, Nineteenth Century; Fielding's Novels, Cornhill; Cattle-herding in the Great West, Spectator; The Origin of Rank, Saturday Review; The Hypocrisies of Nature, Spectator; together with instalments of the "Marquis of Lossie," by George MacDonald, and "Carita" by Mrs. Oliphant; "Nils Jenson," a short story, and "Lotawitza" a Galician Tale, translated for The Living Age from the Revue des Deux Mondes; poetry and miscellany.

Hints on Washing.—The quickest and best way to do the washing for a family of six or eight persons: First, have plenty of boiling water; to every boilerful add from two to three tablespoonfuls of pulverized borax; use some of the borax water from the boiler for every tubful of clothes, adding only enough cold water to make it comfortable for the hands; use soap on the most soiled, and rub on the board or through a washing machine; do not boil the clothes; have a tub partly full of boiling-hot borax water in which to put the clothes that have been rubbed; let them remain in the hot borax water until you are ready to rinse them; from a quarter to a half hour will do; rinse in one clear water, without borax. Use very little, if any, bluing. Borax will not injure the texture of the finest linen, and for infants' clothes or flannel it is the only thing that can be used with perfect safety. If stockings or socks are badly stained, they might be boiled in borax water for a few minutes only—too much boiling makes clothes yellow. Borax acts slowly but surely. The improvement in clothes washed after this direction will be noticed after the second or third trial, often after the first. Add a teaspoonful of borax to every quart of starch—it will keep the starch from sticking and add to the polish.

A Connecticut farmer told his son to cut a hole in the barn so that the cat could go in and out, the barn being infested with mice. The boy did so, locating it just where the barn door when open, would cover the hole. "How in natur is that cat to get into the barn when the hole is covered?" asked the irate father. "Why, through the door, of course," replied the son. The old gentleman suddenly remembered that he wanted something from the house, and he did not send the son after it.

The Commonwealth's "Dotheboys' Hall."—In one of the "trust houses" at Westborough, a house to which boys are promoted for good behavior, because it is felt that they can be trusted to govern themselves in a measure, the records show that the master, one E. D. Dudley, administered 1529 blows at sixty-nine whippings in the course of eight months, there being only thirty-eight boys in the house. This is the way they manage the "good" boys at Westborough.—[Boston Transcript.

—The Providence Light Infantry will arrive here by a special steamer early in the morning of Election day. They will dine in the Aquidneck Assembly Rooms.

—Col. Julius Sayer, we learn, will not accept the position of colonel of the Artillery Veteran Association. There is no likelihood that the resignation will be accepted.

Last night they appeared to a crowded house in Taunton and have exhibited in Fall River and in New Bedford this week with success. There are still a few of the best seats unsold but persons desiring them should apply at the box office before evening. The troupe consists of twenty nine persons and are stopping at the Perry House and at the United States Hotel.

—Owing to the Odd Fellows' celebration Harry Robinson's minstrels were not as well patronized last evening as they otherwise would have been. It is a first class company and is seldom equalled in this section of the country. The songs and music were excellent, there being nothing stale about any part of the program. The solo on a silver trombone by Mr. Marsh was very fine and was enthusiastically encored. Punch was admirably personated and the burlesque trapeze performance by Frank Robinson was one of the best things of the evening. The company propose returning here in about five weeks when they may be sure of a good audience.

—The members of the Newport Choral Society are making good advancement under the efficient tuition of Prof. Sharland. The present series of rehearsals will end after two more evenings. There has been a desire expressed by members of the chorus that a supplementary course of instruction could be secured. Prof. Sharland has consented to continue the arrangement if the management so desire. Should a sufficient number of persons indicate their readiness to proceed further with the work the officers will make the necessary arrangements. The price of tickets for the supplementary course will depend wholly upon the number of persons composing the class.

THE ODD FELLOWS'.

THEIR CELEBRATION YESTERDAY.—ROUTE OF MARCH AND PROCESSION.—MUSIC BY THE NEWPORT BAND.—EVENING FESTIVITIES.

The anniversary of the introduction of the order of Odd Fellowship into America was duly celebrated in this city yesterday by Rhode Island Lodge No. 12, and Aquidneck Encampment, No. 5. The weather was all that could be desired and the parade was a success.

At 2 o'clock the procession formed on Church street, the right resting on Thames street opposite Odd Fellows hall. The streets were blocked with spectators who very much enjoyed the music by the Newport band, particularly the playing of Snowdrop polka by Prof. J. F. O. Smith, leader. The procession formed in the following order:—

Platoon of Police, Officers Steel and Garnet.
Newport band, Prof. Smith, 23 pieces.
Grand Marshal, Andrew McMahon.
Aquidneck Encampment No. 5, in charge of Capt. J. A. Williams.
Rhode Island Lodge No. 12, I. O. of O. F. William Lovie Tilley, Noble Grand, 46 men.

The line of march was down Thames to and up Dearborn street to Spring street, up Spring street to Broadway, thence to the Parade, where the band and procession halted and some fine selections of music were performed. The procession then re-formed and proceeded from the Parade up Thames to Bridge streets, down Bridge to Washington streets, up Washington to High Bridge and into Farewell street, along Farewell to Marlborough street, up Marlborough street to Broadway and Equality Park, where a countermarch and halt took place, and the procession proceeded down Broadway to Ayrault street, up Ayrault to Kay street, thence to Bellevue avenue and the Ocean House, down Bowery street to Spring street, where another halt took place. After re-forming the procession proceeded up Spring street to Touro street, down Touro street to the Parade, thence to Thames street and the lodge room on Church street, where the members of both associations were dismissed for the afternoon. When the procession arrived at Equality Park, the members were very kindly remembered by Brother G. A. Simmons, who regaled them with a bountiful supply of iced lemonade.

The procession attracted no little attention during their long march, and the music by the Newport band was excellent, showing much improvement since Prof. Smith's return.

In the evening a banquet was held in the large room on the third floor of Bateman's Exchange where plates had been spread for upwards of two hundred and seventy-five persons.

Long before the hour had arrived for the festivities to begin, Thames street in front of the hall was full of people who were much interested in watching A. C. Landers illuminate the front of the building which looked very pretty when finished. The Newport band was on h and and played several pieces, the crowd in the street repeatedly applauding.

At about half past 8 o'clock the Odd Fellows and their lady friends made their appearance and entered the hall which was soon filled to repletion. A hundred or more who had tickets were obliged to stand as here was not room for seats. We are assured that the festivities will never be held in such small quarters again.

Four tables, heavily laden with eatables, fruit, nuts, &c., extended the entire length of the hall, while running across the end at the head was a smaller table at which the officers of the lodge and their prominent guests were seated. Among them were James Atkinson, William Lovey Tilley, Thomas Chambers, Ernest Goffe, J. A. Williams, Benjamin A. Sayer, Mayor Bedlow and others. The duties of the master of ceremonies devolved upon Mr. Goffe and Mr. James Atkinson was an excellent toastmaster.

The hall was tastefully decorated with bunting and streamers, very neatly arranged. On one side of the hall was a large Odd Fellows' emblem—the three links—composed of choice flowers which was very much admired.

The brethren were called to order by the master of ceremonies and a blessing was invoked by the chaplain of the lodge, Rev. C. H. Malcom. The prescribed service for the occasion arranged by the grand lodge was observed by the officers of both organizations the proclamation being read by Thomas Chambers, the secretary of Rhode Island lodge.

A thanksgiving hymn "All glorious mighty Lord," was then sung by a quartette from the Zion Church choir, John Rogers presiding at the organ. The prayer was offered by the chaplain, after which an appropriate selection was read by Mr. Ernest Goffe. An ode, "Our Flag" to the tune of "My Maryland" was then sung, the audience assisting. The benediction was then pronounced and the signal given for all present to partake of the supper. After the *menu* had been discussed the master of ceremonies called the audience together for the purpose of listening to the toasts and responses.

Master of Ceremonies.—P. D. D. G. M Ernest Goffe.

Toast Master—C. P. of Aquidneck Encampment No. 5.

Response by P. G. M. C. Howard Malcom, in a very able and elaborate speech.

Music.—"Happy Song of Greeting."

2. *The R. W. Grand Lodge of the United States.* The concentrated wisdom of our "universal fraternity." May its representatives never lose sight of its aims and principles.

Responded to by P. C. P. Benj. A. Sayer formerly of Newport.

3. *The Grand Encampment and R. W. Grand Lodge of Rhode Island.* While they faithfully transmit to their subordinates the letter and spirit of their superiors "for the good of the order," may *our* loyalty never be questioned.

Response by D. D. G. M. John Pitman.

4. *Aquidneck Encampment No. 5, and R. I. Lodge No. 12.* "Behold how good and how pleasant it is for brethren to dwell together in unity." May the good work "go on," as well in the patriarchal as in the subordinate branches of our order, till all the *rough roads* become smooth, and we can sit together in the great tent of the Father of nations, in pure fraternal bonds.

Responded to by the N. G. of R. I. Lodge, Wm. Lovie Tilley and P. G. Enoch George Young.

Music. "I cannot help thinking of the old plantation."

Response by Past N. G. of Esther Lodge, John Pitman.

7. *The Clergy.* They are always welcome with *us.* May a universal toleration in matters of theology, reconcile the affections of all denominations for their common good.

MUSIC.

8. *The Press.* A valued friend—a bitter enemy. It will always *speak* for itself.

Responses by Reporters Pearce and Harris.

9. *The City of Newport.* Eloquently responded to by His Honor Mayor Bedlow.

The Master of Ceremonies, P. D. D. G. M. Goffe, was called upon and gave a graphic account of an excursion of Aquidneck Encampment to Taunton, Mass., some time ago, which occupied a half hour—after which, it being nearly 12 o'clock, the doxology was sung by the entire company, and the entertainment concluded.

Though the hall was crowded to its entire capacity, the occasion was enjoyable in every sense of the word.

The singing by the quartette under the direction of Messrs. Ailman and Pritchard was excellent—and the songs interspersed by Mr. Wm. West were capital.

THE MARCH OF IMPROVEMENT.

For some ten years Mr. C. J. Wheeler, the well known advertising agent, has occupied rooms in the Washington building on Washington row. In order to keep pace with the march of improvement in this city, Mr. Wheeler has now taken pleasant rooms in the new Hall building on Weybosset street, whereby having improved facilities, and being right in the midst of the business men, close to the board of trade rooms, etc., he will carry on his old business of newspaper advertising to greater advantage to both himself and his patrons. His room is No 9, situated up two flights of stairs, brilliantly lighted by two large windows on Weybosset street side, thus making as pleasant quarters as one could well wish. He has nicely fitted up his main room, it being newly carpeted and furnished. There is a speaking tube extending to the main entrance of the building, so that any one can communicate with Mr. Wheeler without going up stairs if they wish. There is a small ante-room containing a desk and chairs for the use of any one who comes when Mr. Wheeler is out. Here are pens, ink and paper with which to write their advertisement, which if left there, will be forwarded to the paper for which it is designed, in the first mail. This room and its conveniences is also at the disposal of those who may wish to drop in to write a letter at any time. There is another room off of the main office where are arranged in pigeon holes the files of some three hundred daily and weekly papers, comprising all varieties, secular, religious, agricultural, illustrated, etc., etc. The dailies are kept for two months and the weeklies much longer, so that if any one desires to see a certain issue of almost any paper during that time Mr. Wheeler's files are at his perusal. This is a great advantage at times, and one that is fully appreciated. Mr. Wheeler inserts advertisements of all kinds, either by the line, square or column, makes contracts, etc., with any or all the papers published in this country, so that any one is spared the expense, trouble and delay of writing to the publishers for rates, but can have his "ads" sent on by the earliest mails wherever he desires. This is a business that has grown to large proportions within a few years and none of its exponents are more practical and successful than Mr. C. J. Wheeler.—[Prov. Press.

"Personification of Milton."—The following "composition" is the production of a graduate of one of the high (?) schools in this city. We give it verbatim, with all its imperfections on its head:

Milton was very smart he knew a great number of languages and he was a very learned man he travelled very much and during his travels he learned every thing he could in the time he had and when he had an allusion to make he could take it out of his skill he did not have to try his genius to do it because he had it in his head and could speak it when he wanted it; but in Shakespeare who was a smart man also but he was not as learned as Milton and of course we could not expect to find as as fine a poem from the pen of Shakespeare as from Milton's pen Shakespeare did not learn as many languages as Milton, and Shakespeare did not have as much knowledge as Milton so his allusions were not as good as Milton's because he had to take his allusions from his own genius. Milton in writing Paradise lost he did not mean it for an epic poem but he meant it for a tragedy and in the personification of the actors he calls Moloch cruelty and he personifies different persons in different ways he meant to call Paradise Lost the Fall of Man.

SOMETHING NEW!

FIFTEEN REASONS

WHY THE

A. B. C. WRINGER

IS SUPERIOR

TO ALL OTHERS!

1. It requires but one half the labor to do the work over the old style wringer.

2. It does not tear off buttons or cut the clothes by forcing and splitting them as other wringers do.

3. It does its work with more uniformity than the old style.

4. It is sold at less than one half the price of other wringers.

5. All of the strength exerted is utilized in wringing, as there is no friction to overcome.

6. It requires no adjustment for different kinds of work.

7. It has no springs to weaken or get out of order.

8. It is made wholly of iron, and galvanized, each and every part being durable, and has no wood about it to warp, crack or split.

9. It is light to handle, and easy to change from one tub to another.

10. Clothes wrung with it will iron easier, as it does not press them full of sharp wrinkles as rubber rolls do.

11. After the clothes are wrung they are left in a loose state, ready to take the bluing or hang out. This is not accomplished in the old style wringer.

12. There are no wearing points, consequently it needs no oil.

13. It will last any one a life time, while others have to be supplied with new rolls in from two to five years time, at a cost which would buy the A. B. C. Wringer.

14. Only the best material is used, and the greatest care is taken to see that every Wringer is perfect before it is sent out.

15. Any person purchasing an A. B. C. Wringer and who is not satisfied with it, after a fair trial, can return it at the end of thirty days, and his money will be refunded.

PRICE, $3.00.

In Connection with the NEWPORT LAUNDRY, we have put up a patent

Prices for Beating Carpets:

For sale cheap, as I want to reduce stock.

I HAVE ON HAND and want to sell the following vehicles;
1 extra nice new Two Seated Sleigh made at Albany, lined with crimson plush, with both pole and shafts, just the sleigh to make a Christmas present, and be remembered at every snow storm. 2 second hand Two Seated Sleighs, with pole only. 1 Single Sleigh, second hand. 1 second hand Coupe Carryall in good order and just painted, good serviceable storm carriage and cheap. 1 Brownell Carryall. 1 C Spring Top Phaeton Buggy. 1 Brewster Top Buggy. 2 Phaeton Top Buggy. 1 Open Buggy. 1 Two Seated Open Wagon. 4 Express Wagons. 1 nice Dog Cart with reversible seat, pole and shafts, just the carriage to drive 4-in-hand to. 1 very nice new Box Top Buggy. 1 very nice new Basket Top Phaeton, will sell a great deal lower now than in the Spring—makes a good close buggy, or a nice summer carriage. 3 second hand Beach Wagons, cheap. 1 second hand Landau, cheap. 3 Barouches in good order and newly painted. 1 Victoria with pole and shafts, cheap if sold now. 1 Covered Wagon, will carry 8 people easy. 1 new Express Wagon, cheap as we are giving up selling express wagons. 1 new Road Wagon, just the thing for business or pleasure. 1 Sargent Top Phaeton Buggy, been used but little. 1 Phaeton Top Buggy, one year's use and that with care. 1 second hand Light Dog Cart with shafts. 1 second hand Drag with seat behind, just the thing for 6 horse team, newly painted and in good order, and several other carriages all of which I shall be glad to sell for cash or paper that will be paid at maturity.
I would say that through the kindness of my friends, I have disposed of about 100 different vehicles the past few years having sold carriages to go to Providence, R. I., Stonington, Ct., Little Rock, Arkansas, Middletown, Portsmouth, Tiverton, Fall River, New Hampshire and various other places, all of which have proved as represented. To those having any House Painting, Graining or any other work, that they want done and are willing to pay a fair price to have the same done in a good and substantial manner, I shall be glad to give estimates, and will warrant all work done by me to be in every respect as represented. I return my thanks for the generous patronage which has been bestowed in the past and asked a continuance in the future. To my very numerous friends who have neglected to settle their bills for work done long ago,—if they will now respond by attending to them at once they will confer a great favor, as money is now very useful.

WISDOM.

Those who come to you to talk about others are the ones who go to others to talk about you.

That man who fears God is the wisest man; and he that departs from evil has the best understanding.

In matters of conscience first thoughts are best. In matters of prudence last thoughts are best.--[Robert Hall.

Disdain not your inferior, though poor, since he may possibly be much your superior in wisdom and the noble endowments of the mind.

It is a bad theory to marry "opposites." A man cannot be happy with an ignorant wife. If her face be her fortune, he will be surprised to see how soon his love declines.

We are too apt, in our wonder and applause at the height to which a man has attained against all odds, to forget to note whether his steps up the incline have been clean and justly taken.

AN ANECDOTE OF THAD. STEVENS.

Mr. McPherson, former clerk of the house of representatives and Mr. Stevens's executor, has nearly completed his life of the great commoner. It abounds in reminiscences of the man and the times, which can hardly fail to be interesting. The following anecdote well illustrates the gruff magnanimity of the old statesman:

Pierce M. B. Young, a recent representative in congress from Mississippi, was a confederate general, and a graduate of West Point. He came to Washington soon after the war, seeking to have his disabilities removed. He was a fine, manly fellow, and seemed to have accepted the results of the war in good faith. He went to Thad. and Thad. began to play with him, as he sometimes did with those whom he intended to make his victims. He said—

"You are a graduate of West Point, I believe?"

"Yes, sir."

"Educated at the expense of the United States, I believe, which you swore faithfully to forever defend?"

"Yes, sir."

"You went into service of the infernal rebellion?"

"Yes, sir."

"You were a brigade commander in the raid into Pennsylvania, which destroyed the property of so many of my constituents?"

"Yes, sir."

"It was a squad of men under your direct charge, and under your personal command, that burned my rolling mill?"

"Yes, sir."

Young thought he was gone, but seeing that the old veteran had come into the possession of the last fact, which Young did not dream he knew, it was impossible to deny the truth of his question. Thad roared out, "Well, I like your —— impudence. I will see that your disabilities are removed. Good morning." And the next day the bill passed the house.

The healthiest city in the world last year was Warsaw in Poland, where the deaths were 28 to the 1000; and the unhealthiest was Madras in India, where there were 121 to the 1000. In Paris the death rate was 53, in London 40, in New York 47, in Philadelphia 32, in Boston 37, and in San Francisco 58.

R. H. EDDY, Esq.—Dear Sir: you procured for me, in 1840, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, reissues and extensions. CHILDREN TEETHING

MRS. WINSLOW'S SOOTHING SYRUP,

For Children Teething,

greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

Sure to Regulate the Bowels.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to Your Infants.

We have put up and sold this article for years, and CAN SAY IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after years of experience. AND PLEDGE OUR REPUTATION FOR THE FULFILMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation has been used with NEVER FAILING SUCCESS in

Thousands of Cases.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic.

We believe it the BEST AND SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—DO NOT LET YOUR PREJUDICES, NOR THE PREJUDICES OF OTHERS, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle.

TO THE LOVERS of STEREOSCOPIC VIEWS.

THE ATTENTION of the public is invited to the following views from negative by J. A. WILLIAMS, which is believed to be the best and largest collection of the gems of Newport scenery ever offered.

The negatives are all carefully taken with the best materials and instruments and aim to present not merely patches of landscapes from points chosen at random as is the case with many others, but, views which shall combine within themselves all the best elements of a picture in the artistic sense.

We would call particular attention to our new cabinet size views taken the present season, 1876, which exhibit with all the fidelity of the stereoscope.

Parties who may wish to make presents to their friends abroad, or to carry home mementoes of Newport, cannot make a more acceptable choice than by selecting from the many beautiful views of Newport and surroundings.

Interiors and exteriors of houses taken to order. Also parties, horses, &c.
